

4-port ADSL2+ Router Model No.: VDL204

VDL204 is the most powerful ADSL2+ Modem Router with one RJ11 port and 4 RJ45 ports, compliant with ANSI T1.413 Issue 2, ITU-T G.992.1(G. dmt), ITU-T G.992.2 (G. Lite), ITU-T G. 992.3, ITU-TG.992.5, Annex A/B. VDL204 is pure ADSL 2+ modem with router and firewall function,. It fully supports ADSL2+/ADSL2/ADSL.

VDL204 ADSL2+ 4port router integrates a full-rate ADSL 2/2+ modem, router, firewall, 4-port 10/100Mbps Ethernet switch into a single cost-effective product. Concurrent Ethernet is supported for flexibility in operating with a range of devices. Up to four computers can be plugged into the 4 ports directly and each can enjoy simultaneous independent Internet access.

Features:

- * Compatible with BT, AOL, Kingston & all other ISPs and support various DSLAMs
- * Supports ADSL /ADSL2/ ADSL 2+
- * Rate adaptive, downstream up to 24 MB / upstream up to 1MB
- * Max transmission distance: 6.50kms
- * Integrated 10/100 Mbps 4 Port Fast Ethernet switch (MDI/MDIX Auto Sensing)
- * Built-in NAT function (allow multiple PCs & devices to share single Internet connection)
- * Web based configuration & management
- * QoS Bandwidth management
- * MAC Address Filtering
- * UPnP (Universal Plug & Play)
- * Support SPI (State full Packet Inspection) Firewall
- * Support NAT & Firewall enable/disable

- * Support Virtual Server/Port Forwarding
- * Support DMZ host configuration
- * Support Up to 8 PVCs
- * Lightning-proof
- * Web-based friendly management interface

Specification:

Protocols Supported	ANSI T1.413 Issue 2
	ITU G.992.1(G.dtm)
	ITU G.992.2(G.lite)
	RFC 1483/2684:Ethernet over ATM bridge mode
	RFC 2516:PPP over Ethernet
Transmission Rate	Downstream up to 24Mbps
	Upstream up to 1024kbps
	Support ADSL, ADSL2, ADSL2+
AAL and ATM Supported	AAL:AAL5, ATM: UBR ATM, UNI 3.1, UNI 4.0
Ports	Line:RJ-11, LAN:RJ-45*4, Power
LED Indicators	POWER, LAN-LINK, LAN-ACT, ADSL-LINK, ADSL-ACT
Operating Environment	Temperature: -20°C to 70°C
	Humidity: 5% to 90%
